

SUGGESTED USE

As a dietary supplement, take 1 vegetarian softgel daily, preferably with a meal.

DHA (docosahexaenoic acid), an omega-3 fatty acid, is a major structural fatty acid in the brain and eyes. It's also a key component of the heart. Studies have shown DHA supports cardiovascular and brain function, healthy eyes and joint mobility. Unlike other sources of DHA, lifes DHA™ is a vegetarian source (algae). Experience the benefits of DHA without the worry of ocean-born pollutants and mercury potentially found in certain fish.*
